
33rd Annual Armed Forces Day and Shriners Parade

PARADE GUIDELINES

- **Float** (any decorated vehicle, large or small. Maximum length is 50 feet, including the towing vehicle).
- Maximum height is 13 feet.
- Please list the size of your vehicle or float on the application in the appropriate place, to allow the lineup director to know how much space is needed for your float or vehicle when planning the lineup.
- It is ok to pass out candy or other material but you are not allowed to create more than a 15 ft. gap between you and the float or vehicle in front of you.
- Children younger than 16 years of age are not allowed to walk in the parade, due to past experience they are not able to keep up with the flow of the parade.

Thank you for participating in this year's parade and abiding by the guidelines that are put in place for a safe and successful fun filled parade.
